

## CLAMP METER

# DCM301 (with case)

## APPLICATIONS AND FEATURES

This is a digital AC clamp meter designed for measurement of low-voltage circuits in the application range of 1000V CAT.III, 600V CAT.IV. It is suited to current and voltage measurement of power lines, electrical equipment, and electrical facilities less than 1000Vrms to ground.

- The CT shape makes it easier to clamp cable in crowded.
- True RMS reading for measurement of even distorted waveforms.
- An electric field (EF) function is incorporated in the tip of the CT to enable detection of about AC 90V or more.
- Clamp opening diameter of 34 mm at maximum.
