

Time Electronics

1068 Fixed Resistance Box

- **5 fixed resistance ranges**
- **High accuracy**
- **Clear visual indication**
- **Portable and compact**
- **Simple operation**
- **Robust casing**
- **Ideal for technical education use**

DESCRIPTION

A compact 5 fixed value resistance box designed for industrial, general laboratory, and education requirements. Housed in a robust case the 1068 is easily portable and takes up minimal bench space. Being a low cost and simple operation instrument it is a popular model for physics and electronics laboratories in universities and schools.

The high accuracy obtained in the 1068 is achieved by the use of precision resistors. To select a value simply connect test leads to one of the fixed value resistors; 1Ω, 10Ω, 100Ω, 1kΩ, or 10kΩ.

Connection to the box is via 4mm binding posts and the values are clearly indicated beside each terminal.

SPECIFICATIONS

5 Fixed Resistance Ranges 1Ω, 10Ω, 100Ω, 1kΩ, 10kΩ

Accuracy $1\Omega \pm 1m\Omega$
..... $10\Omega \pm 5m\Omega$
..... $100\Omega \pm 10m\Omega$
..... $1k\Omega \pm 100m\Omega$
..... $10k\Omega \pm 1\Omega$

Voltage Rating Maximum 250V DC/AC RMS

Dimensions L115 x W65 x H86mm (including terminals)

Weight 0.29kg

ORDERING INFORMATION

1068 Precision Fixed Resistance Box

C164 Factory Calibration Certificate (NPL traceable)

C114 UKAS Calibration Certificate (ISO 17025)
